julianahale.com

With her evocative voice and ability to bring her stories to life in vivid detail, Juliana Hale has established herself as one of the most unique and promising talents in indie-pop. Juliana is a true Renaissance artist, combining her multi-instrumental, songwriting, and vocal abilities with a love of visual arts to create an unforgettable, immersive experience.

In the crowded world of modern singer-songwriter, Juliana's emotionally direct storytelling and retro and pirate-inspired aesthetics set her apart. She is an exceptionally versatile writer, capable of summer party anthems, emotionally intense ballads, and everything in between. Hale connects deeply with fans online and has built a solid base of supporters. She transparently shares her chronic health struggles and provides a positive community to those who relate. With a steady stream of content expected for 2024 and beyond, Juliana is well on her way to becoming a fixture in modern music.

For the past year, Juliana has been in the studio with Jimmy Maynes and Grammy-winning producers and songwriters putting together a project that began releasing in October on the Orchard with her new label 615 JJ Entertainment.

Having appeared as a lead in the film "And You Call Yourself A Christian," Juliana will once more appear on movie screens and streaming services across the country as the lead character in a new film called "Hope and Future" in 2025.

Hale has rocked major shows across the nation, performing at festivals like Breakaway, SXSW, and Common Ground, and sharing stages with industry titans like Halsey, Snoop Dogg, Flo Rida, and Berlin. Additionally, she has begun popping up in several independent films, proving that her artistry isn't limited to the stage. Proving her status as a hard working over achiever Juliana has launched a successful music industry audio and video podcast called "I Eat Vibes for Breakfast". She has been on a creative hot streak since and is getting ready to release an album that expresses her artistry in a whole new light.
